About Montessori at West Ottawa

West Ottawa Public Schools' Waukazoo Montessori program began in 2000 and to-date, continues to expand. With five classrooms, the Montessori program now engages kindergarten through fifth grade learners. The Montessori students take part in all the school has to offer; including Student Council, fundraisers, after-school extracurricular activities and special classes that focus on music, art, physical education, Spanish and technology.

The Montessori Method

The Montessori Method is a holistic educational approach that encourages independence and freedom to assist in developing self-directed learners.

Montessori teachers follow students at their own individual learning level. Within the prepared environment, multi-aged groupings provide opportunities for peer tutoring and cooperative learning by using Montessori materials that are hands-on and often self-correcting.

The results we see with these methods of instruction are; an increase in self-confidence, intrinsic motivation, excitement for learning and academic achievement!

The Montessori Curriculum
Includes: Practical Life, Sensorial, Mathematics, Language, Art and Cultural Studies.
